

## Macrocyclic, fused-polycyclic and large open-chain compounds, part 1

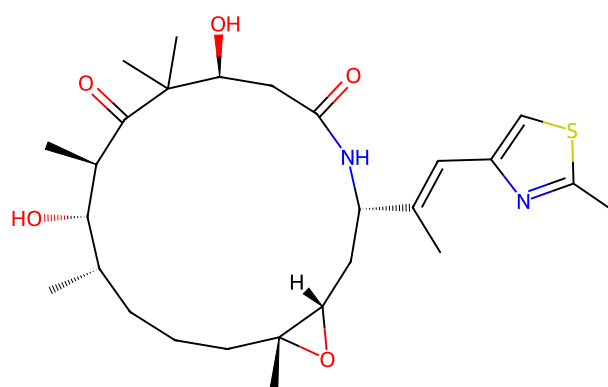

306 lorlatinib

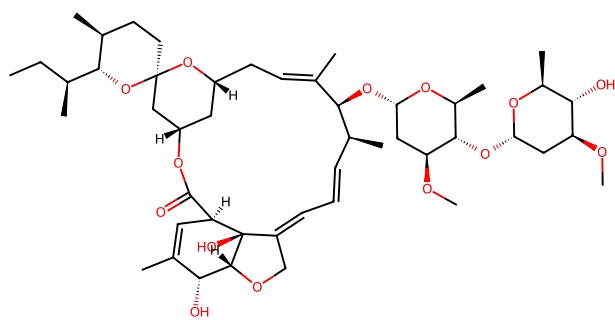

307 epothilone

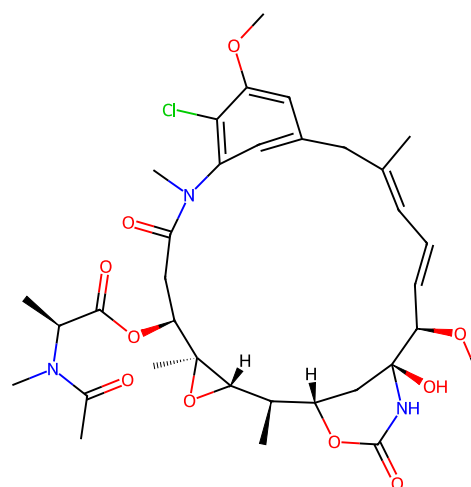

308 daptomycin

309 ixabepilone

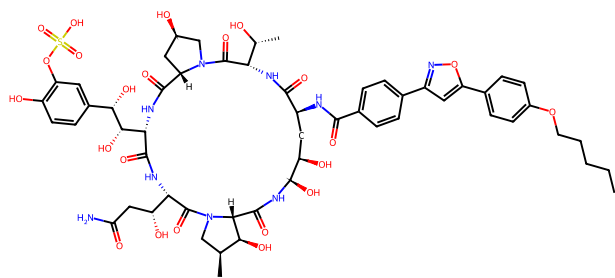

310 ivermectin B1a

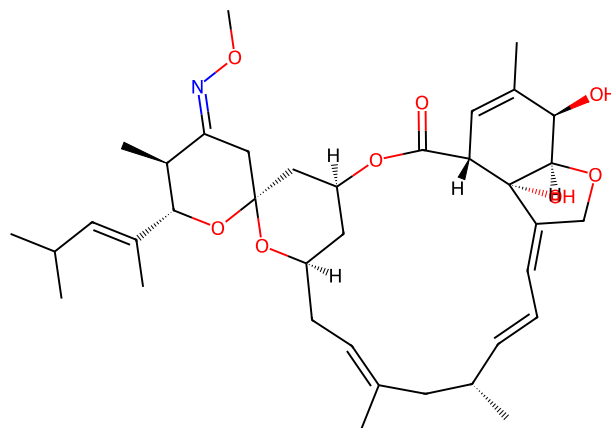

311 maytansine

Figure 1. Macrocyclic, fused-polycyclic and large open-chain compounds, part 1 (6 per page, line width 2.0).

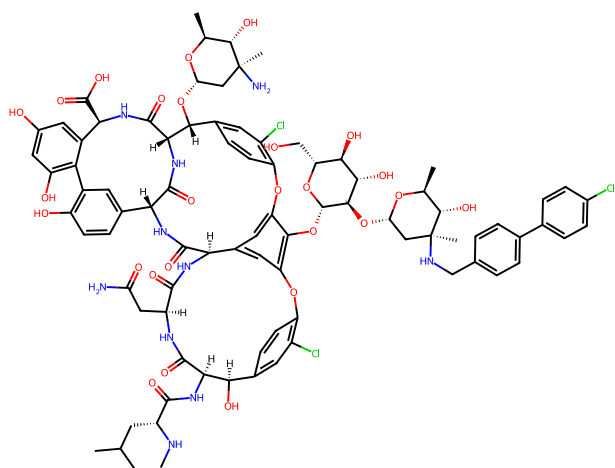

## Macrocyclic, fused-polycyclic and large open-chain compounds, part 1

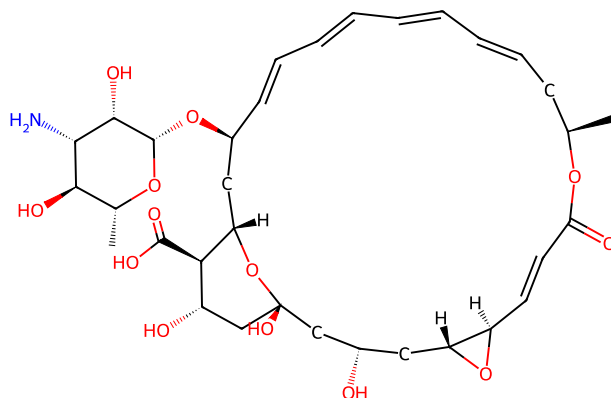

312 micafungin

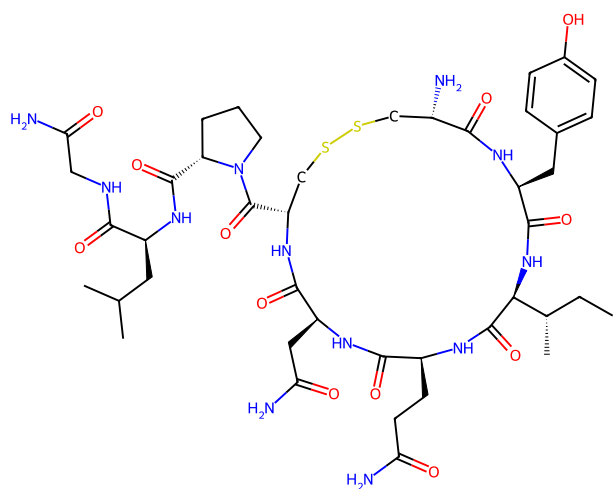

313 moxidectin

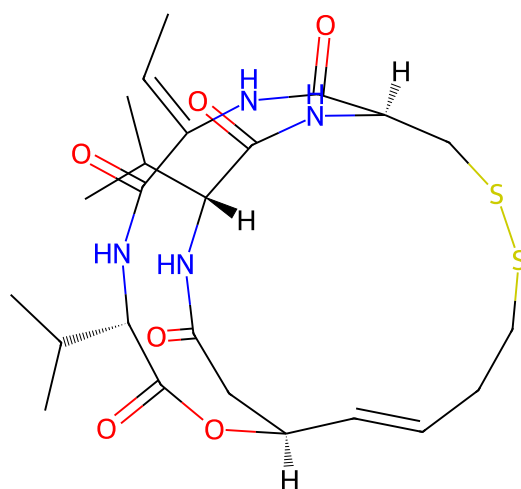

314 oritavancin

315 natamycin

316 oxytocin

317 romidepsin
