

Macrocyclic, fused-polycyclic and large open-chain compounds, part 3

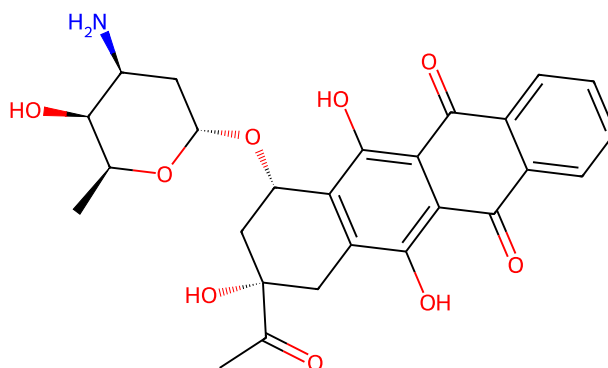

330 digitoxin

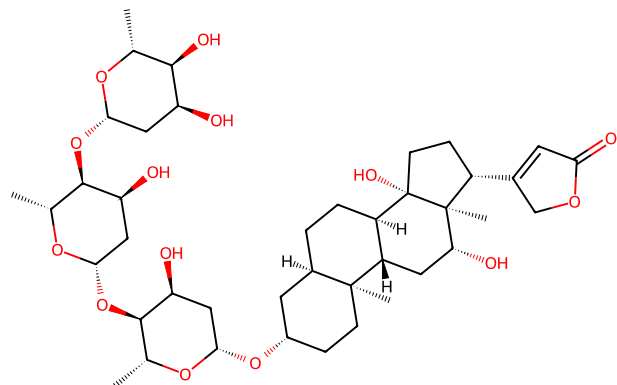

331 memantine

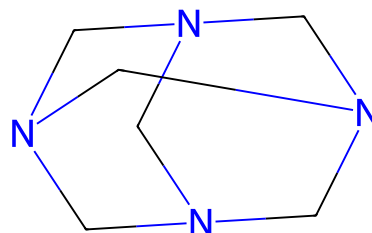

332 corticosterone

333 idarubicin

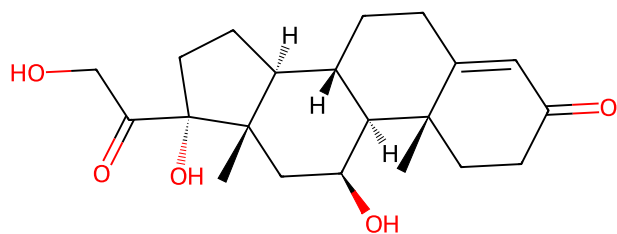

334 digoxin

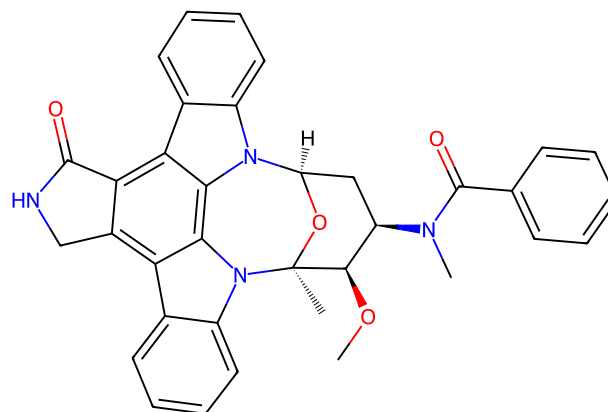

335 methenamine

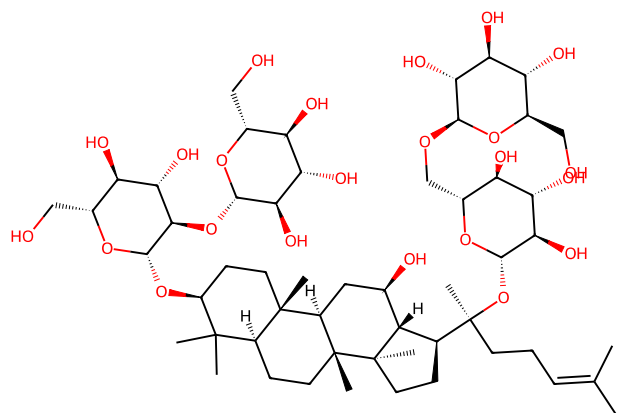

Macrocyclic, fused-polycyclic and large open-chain compounds, part 3

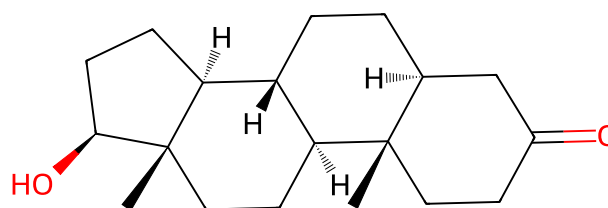

336 cortisol

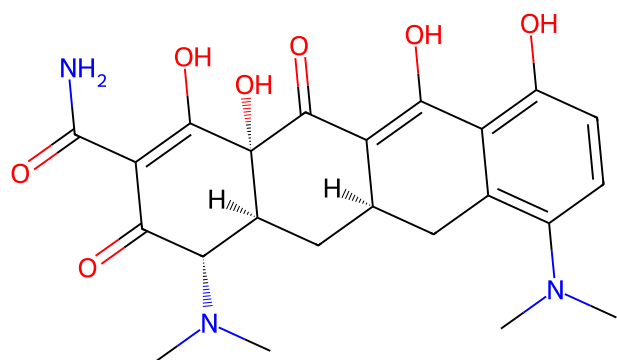

337 midostaurin

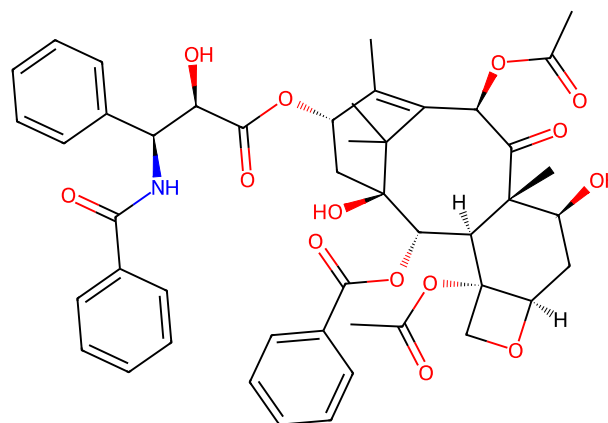

338 ginsenoside Rb1

339 dihydrotestosterone

340 minocycline

341 paclitaxel
